To whom it may concern

Mona Haug

I am pleased to provide a reference for Mona Haug. Mona Haug was recommended to me in 2012 as an excellent executive coach. She spent a week working with my team of 5 executive members in September 2012, helping us to develop our sense of team and to understand each others' leadership styles in order to become a truly effective team.

I have since commissioned Mona to do a year long intervention with the team, involving both individual and team coaching. Mona brings a highly structured approach, mixing theory and practical work. She is able to adapt and flex her approach in order to maximise team and individual buy-in. Each member of my team has commented on how helpful the individual work they are doing with Mona is, and I can already see the business benefits of her input. I would highly recommend Mona for her insight, energy commitment and effectiveness.

Please do not hesitate to contact me if you would like to discuss this testimonial further.
